L1: Student Name: _____

Q1) Write a single command that:
   a. Lists all files in the current directory.
   b. Filters, the list should only include files of the type "*.mp4".
   c. Displays the last three files from this filtered list.

Q2) Write down a C *function* that takes an array of stack pointers (int *stk_ptrs[ ]), and an array of heap pointers (int *heap_ptrs[ ]), and prints their locations in the virtual memory?
You are welcome to use any additional arguments you may need for the said function.
